"Power of Custodian to dispense with certain payments in certain cases.

9d.—(1) Where any person (hereafter in this section referred to as "the applicant") who, but for the operation of this Ordinance or any order made thereunder, would have been entitled to —

(a) the whole of any property comprising a citrus grove (hereafter in this section referred to as "the grove") on, or in connection with, the maintenance of which the Custodian has expended moneys in exercise of his powers under this Ordinance; or

(b) a share in such property,

applies to the Custodian to take such steps as may be necessary to effect the vesting of such property in the applicant, the Custodian may, if he thinks it just and proper so to do after having received such information in such form as he may require, dispense with the payment to him by the applicant, and shall thereupon be entitled to payment by the Government, of such part of such moneys expended by him as aforesaid as is equal —

(i) in the case where the application is made in respect of the whole of such property, to the amount which the District Commissioner of the district in which the grove is situated certifies to be the aggregate amount which would have been received in respect of such grove as a short term crop loan from an approved company under the Short Term Crop Loans (Security) Ordinance, 1935 the repayment of which was guaranteed by the Government, had such loan been applied for;

(ii) in the case where the application is made in respect of a share in such property, to the amount which bears to the said aggregate amount the same proportion as such share bears to the whole of such property,

if all the following requirements are complied with, that is to say —

Insertion of new section, section 9d, in the principal Ordinance.

(A) the applicant executes a deed of loan made between the District Commissioner of the district in which the grove is situated for and on behalf of the Government, of the one part, and the applicant, of the other part, and duly stamped at the expense of the applicant, wherein the applicant acknowledges that he is indebted to the Government in the amount mentioned in paragraph (i) or (ii) hereof, as the case may be, and undertakes to pay to the Government the said amount together with interest thereon at the rate of 3 per centum per annum in such manner as the said District Commissioner shall determine and as shall be stated in such deed, and wherein it is provided that the said amount together with any interest accruing thereon shall constitute a first charge on any crop of the grove (whether or not such crop is in existence at the time fixed for payment of the said amount and any interest thereon, or any instalment thereof) in favour of the Government, having priority over any other charge on such crop, whether created before or after the date of commencement of the Trading with the Enemy (Amendment) Ordinance, 1947; and

No. of 1947.

(B) the applicant lodges a copy of such deed with the District Officer of the Sub-District in which the grove is situated, and pays the fees prescribed for the registration of charges under the Short Term Crop Loans (Security) Ordinance, 1935; and

No. 27 of 1935.

(C) the said District Officer makes an appropriate entry in the Register Book of Crop Charges kept under the Short Term Crop Loans (Security) Ordinance, 1935.

(2) Upon and after the execution by the applicant of the deed mentioned in subsection (1), the amount mentioned in paragraph (i) or (ii) of that subsection, as the case may be, together with any interest accruing thereon shall constitute a first charge as provided in such deed in accordance with the provisions of paragraph (A) of subsection (1), and the provisions of the Short Term Crop

No. 27 of 1935.

Loans (Security) Ordinance, 1935 shall, subject to the provisions of paragraph (A) of subsection (1), and with such modifications as may be necessary, apply to such charge as if it were a charge registered in favour of an approved company under that Ordinance, and if the said amount together with any interest accrued thereon is not paid on the date when it becomes due in accordance with the provisions of the said deed, the said amount together with such interest may be collected in accordance with, and shall in all respects be subject to, the provisions of the Taxes (Collection) Ordinance as if it were a tax payable by the applicant duly assessed and overdue.

Cap. 137.

OBJECTS AND REASONS.

Applications are being made to the Custodian of Enemy Property for the release of properties vested in him comprising citrus groves on, or in connection with, the maintenance of which the Custodian has expended monies in exercise of his powers under the Trading with the Enemy Ordinance, 1939. Under the law as it stands at present the Custodian cannot release such properties unless and until the monies expended by him on such groves are repaid in full. Such repayment, however, in many cases cannot be made unless the whole or part of the property concerned is sold, thereby causing hardship in certain cases. It is therefore proposed to authorise the Custodian to dispense with payment by the applicant for the release of the property concerned of a certain part of such monies if certain requirements are complied with by such applicant and if the Custodian does so he will be entitled to payment of such part by Government. Broadly speaking, such part of the monies expended by the Custodian of Enemy Property will be treated in much the same manner as it would have been treated had it been a loan granted to the applicant by an approved company under the Short Term Crop Loans (Security) Ordinance, 1935 the repayment of which was guaranteed by Government. (Clause 3 of the Bill refers).

Clause 2 of this Bill seeks to empower the High Commissioner to authorise the Custodian to invest any moneys in his possession in such manner as the High Commissioner may specify from time to time and to authorise the disposal of any income received from investments made by the Custodian at any time since the 3rd day of September, 1939, the date on which the Trading with the Enemy Ordinance, 1939 came into force. When this Bill becomes law, paragraph 10 of the Trading with the Enemy (Custodian) Order, 1939 will be revoked.

Attorney General.

OBJECTS AND REASONS.

Owing to the implementation of the re-grading scheme for the second division of Government officers and to other developments in the Service it has become necessary to amend the Schedule to the Provident Fund Ordinance, 1943. Clause 2 of this Bill is designed to give legal effect to those changes.

2. Under section 12(1) of the principal Ordinance a depositor is not eligible for a bonus in respect of service prior to the coming into force of that Ordinance (1st April, 1943), unless he has become a depositor without break of service. It is considered to be just that an officer should not be deprived of such bonus on account of a break in his service, if the break of service did not occur because of his own misconduct or voluntary resignation. Clause 3 of this Bill provides, therefore, that breaks of service not due to dismissal or voluntary resignation should not affect an officer's eligibility for a bonus under section 12, though, of course, it will affect the amount of the bonus with which the depositor will be credited.

3. Clause 6 provides that existing rights acquired before the enactment of this Bill shall not be prejudicially affected.

L. B. GIBSON
Attorney General.

The text of an Agreement signed at Neuchâtel on 8th February, 1947, for the preservation or restoration of industrial property rights affected by the Second World War is published below for information. A request has been made by the Government of Palestine to His Majesty's Government that notification shall be given under Article 10 of the extension of the Agreement to Palestine and a further notice will be published when it has been confirmed that this notification has been given.

AGREEMENT FOR THE PRESERVATION OR RESTORATION OF RIGHTS OF INDUSTRIAL PROPERTY AFFECTED BY THE SECOND WORLD WAR.

The undersigned Plenipotentiaries of the Governments of the countries members of the International Union for the Protection of Industrial Property, being desirous of providing remedies for the prejudice to the rights of industrial property arising from the Second World War, after having communicated their respective full powers, found in good and due form, have agreed upon the following provisions :

ARTICLE 1.

The period of priority, provided by Article 4 of the Convention of the Union of Paris for the protection of industrial property, for the deposit or registration of applications for patents for inventions for utility models, for trade marks, and for industrial designs and models, which had not expired on the 3rd September, 1939, and those which have arisen since that date but before the 1st January, 1947, shall be extended by each of the contracting countries in favour of the proprietors of such rights recognised by the said Convention, or their legal representatives or assignees, until the 31st December, 1947.

ARTICLE 2.

A period expiring on the 30th June, 1948, shall be granted, without supplementary fee or penalty of any kind, to the proprietors of rights recognised by the said Convention, or their legal representatives or assignees, to accomplish any act, fulfil any formality, pay any fee and generally to satisfy any obligation prescribed by the laws and regulations of each country, in order to preserve rights of industrial property already acquired on the 3rd September, 1939 or after that date, or to obtain those which if the war had not taken place, might have been acquired since that date in consequence of an application made before the 30th June, 1947.

ARTICLE 3.

The renewal of registration of trade marks which have reached the end of their normal term of protection after the 3rd September, 1939, but before the 30th June, 1947, shall have retroactive effect to the date of expiration of such normal term provided the renewal is effected before the 30th June, 1948.

ARTICLE 4.

Countries which participate at the same time in the present Agreement and in the Madrid Agreement concerning the International Registration of Trade Marks further agree as follows : the renewal of registration of trade marks entered on

the International Register and of which one of the contracting countries is the country of origin in the sense of Article I of the Madrid Agreement shall have retroactive effect to the date of expiration of their normal term provided the renewal is effected before the 30th June, 1948.

ARTICLE 5.

(1) The period between the 3rd September, 1939 and the 30th June, 1947, shall not be taken into account in calculating the periods provided for the exploitation of a patent, for the use of a trade mark, for the exploitation of an industrial design or model, and the period of three years provided by paragraph (2) of Article 6 bis of the Convention of the Union.

(2) Further, it is agreed that no patent, industrial design or model, or trade mark, still in force on the 3rd September, 1939, may be subjected to any of the penalties provided by Article 5 of the Convention of the Union before the 30th June, 1949.

ARTICLE 6.

(1) Third parties who, after the 3rd September, 1939 and until the 31st December, 1946, have undertaken in good faith the exploitation of an invention, of a utility model, or of an industrial design or model may continue such exploitation subject to the conditions prescribed by the domestic legislations.

(2) An inventor who establishes proof of his inventorship and who has filed an application for patent between the 3rd September, 1939 and the 1st January, 1946, or his legal representative or assignee, may in respect of an application for patent claiming the benefit of Article 1 be treated as an exploiter in good faith, even if he has not effectively exploited his invention, provided he can establish that the exploitation was prevented by the war.

ARTICLE 7.

The provisions of the present Agreement comprise only a minimum of protection; they do not prevent a claim, in favour of the proprietors of rights of industrial property, for the application of any more extended prescriptions which may be fixed by the domestic legislation of a contracting country; they equally permit the continuance in force of more favourable and non-conflicting agreement which the Government of the contracting countries have concluded or may conclude between themselves.

ARTICLE 8.

The provisions of the present arrangement shall not prejudice the application of the provisions of Agreements or Treaties of Peace concluded or to be concluded between countries which have been at war with one another.

ARTICLE 9.

(1) The present Agreement, open to countries members of the Union for the protection of industrial property, shall be ratified as soon as possible. The ratifications shall be deposited with the Government of the Swiss Confederation, and

notified by that Government to all the others. The present Agreement shall enter into force without delay between the countries which have ratified it.

(2) Countries which have not signed the present Agreement may adhere to it upon request. Such adhesions shall be notified to the Government of the Swiss Confederation, and by that Government to all the others. It shall entail as a matter of right, and without delay, accession to all the clauses and admission to all the advantages stipulated by the present Agreement.

ARTICLE 10.

Any contracting country may extend the present Agreement, by simple notification made to the Government of the Swiss Confederation, to all or part of its colonies, protectorates, territories under mandate or under trusteeship, or all other territories submitted to its authority, or all territories under suzerainty. The Government of the Swiss Confederation will transmit this notification to the other Governments.

ARTICLE 11.

The present Agreement shall be signed in a single copy, which shall be deposited in the archives of the Government of the Swiss Confederation. A certified copy shall be transmitted by that Government to each of the signatory and adhering Governments.

Done at Neuchatel, the 8th February, 1947.

II.

The provisions of Article 1 apply equally to applications for patents deposited by Czechoslovak nationals at the German Patent Office at Berlin in the period between 1st August, 1940, and the 4th May, 1945, inclusive, provided that the invention was not made in Germany.
